★ General Office Info ★

On October 20, 2016, ALPI USA held a grand opening party at its new USA headquarters in New York.

Clients, vendors, ALPI ownership, and employees from throughout the USA gathered at the new location in Valley Stream, NY to celebrate.

It is located in the same facility as U.S. Fish & Wildlife, closer to JFK airport and cargo facilities, and a short distance from the railroad for direct and easy access into Manhattan.

★ Flavor ★

Nicknames: The Big Apple - The City that Never Sleeps - Gotham - THE CITY.

Landmarks: World Trade Center Memorial - Times Square - Broadway - The Statue of Liberty - Ellis Island.

While New York City is not the capital of New York State (Albany holds this privilege), many consider it to be the center of the world! For centuries, it has been a major gateway into the United States of America for immigrants and visitors alike. Some come just to catch a glimpse of the famous city depicted in more movies, television shows, and books than any other U.S. city - perhaps even any world city! Others come to pursue a dream and a new life in our diverse melting pot. No matter who you are or where you come from, New York City will give you the chance to make your own "rags to riches" story. The recipe for success surely include a willingness to work hard, physical and mental fortitude, and the determination to never give up. If you are indeed successful, like the song says, you have confidence in knowing "if you can make it here, can make it anywhere!"

Today, more than 8 million New Yorkers live in the five boroughs - Manhattan, the Bronx, Queens, Brooklyn, and Staten Island, more than one-third of whom were born outside the USA. It's the opportunity, the food, the history, the culture and art, and most importantly the people who are incredibly proud and willing to share this city that make it so special and the cultural capital of the United States.

★ Fun Facts ★

- Except for emergencies, honking your car horn is actually illegal in New York City. Everybody does it anyway.
- In 1789, New York City was named the first capital of the United States. It lasted for only one year.
- With over 800 languages spoken by a significant portion of the population, New York City is the most linguistically diverse city in the world.

Atlanta

★ General Office Info ★

Alpi Atlanta was established in 1998 as a full Freight Forwarding branch of Alpi USA. Since then it has grown to also include Alpi Customs Brokers, offering our Agents and customers a convenient “one-stop shop” for full handling of all import related shipments. Because of our world class Airport and Seaport, Alpi Atlanta handles several tons of export Air freight and Sea freight to any and all destinations worldwide.

We look forward to working with our customers and colleagues around the world and invite anyone wanting some Southern hospitality to stop by and say “Hey”.

★ Flavor ★

Nicknames: The A, The Big Peach, City in a Forest, Hotlanta.

From its humble beginning in 1837 as “Terminus”, the origin of a Rail hub for the Southeastern United States, Atlanta has grown to become a major player on the world stage of commerce. Located in north central Georgia, Atlanta is our state Capital and the center of regional business activity for the southeastern United States. Our fair and friendly city ranks fourth in the number of Fortune 500 companies headquartered here. Anybody who’s ever had a bottle of Coca-Cola, sealed a Tupperware container, or flown to the 1996 Olympics in Atlanta on a Delta jet can thank Atlanta for being home to Coca-Cola, Newell-Rubbermaid, and Delta Airlines. Downtown Atlanta is the pulse of Georgia and incorporates many different and vibrant cultural aspects of our diverse residents. You can get home cooked grits at The Flying Biscuit in Little Five points or sweet pulled pork sandwiches at Fox Brothers in NE Atlanta. People wanting to see and live in the history of our city can grab a Mint Julep and head over to the Gone with the Wind Museum in neighboring Marietta or downtown Atlanta to the Cyclorama, a museum dedicated to the American Civil War.

Our fair and temperate climate (Keep your snow, Chicago!) allows Georgia to boast about being the “Peach Tree State” because of our natural and juicy peaches known worldwide! Just a three-hour drive east will put you at the Atlantic Ocean, where you can visit Savannah for a taste of fresh seafood and sweet ocean breezes. Staff here will sometimes turn their attention to the breathtaking views from the mountains of northern Georgia, just an hour away, to go hiking, boating in the many mountain lakes, or visiting some of the historic battlefields from America’s Civil War.

★ Fun Facts ★

- The city got its current name from railroad engineer J. Edgar Thompson. It’s thought to be a shortened version of “Atlantica-Pacifica”.
- Atlanta was the only city in North American destroyed as an act of war. (General Sherman burnt it to the ground). Only 400 buildings survived. That’s why the city’s symbol is a phoenix.
- Hartsfield-Jackson Atlanta International Airport truly is the world’s busiest airport.

Boston

★ General Office Info ★

The ALPI Boston office is responsible for the territory of New England (Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut) except for the southern part of Connecticut. Air and ocean imports/exports of department store merchandise, luxury handbags, wearing apparel, textiles, machinery and tile are among the top products handled in our office. The Boston office is also known as the center for key account/PO management and for marketing and the ALPI store.

Both Rita Grillo, (General Manager) and Janet Votze (Global Accounts/Marketing) have been with ALPI Boston since it opened. Many of our staff are related to Rita - and the rest of us consider ourselves honorary family members. We are proudly celebrating our 20th Anniversary in 2017!

★ Flavor ★

Nicknames: Beantown, the Hub, City Upon a Hill.

The ALPI Boston office is located just north of “Beantown”, the famous nickname for Boston due to the baked beans that were a staple in Colonial New England. Boston is the largest city Massachusetts and New England. Founded in 1630 by the Puritans from England, Boston is one of the oldest in the USA. Visitors often comment how it feels like a European city, with its irregular street grid and Federalist architecture. It is a great walking city.

We are known worldwide for our unique Boston accent (we “pahk the cah in Hahvuhd Yahd”), terrible drivers, our obsession with The Red Sox, the Boston Marathon, clam chowder, fried clams, Fenway Park, and our significant role in in the American Revolution.

Boston is considered one of the top places in which to do business in the United States. The local economy is founded on education, health care, finance, information technology and biotechnology. The area is home to world-renowned universities (such as Harvard and MIT) and many well-recognized Fortune 500 company headquarters, such as Raytheon, Staples, TJX, and EMC.

★ Fun Facts ★

- Christmas was banned in Boston between 1659 and 1681. The Pilgrims believed it was a corrupt holiday and banned any celebrations during that time period.
- The art heist from the Isabella Stewart Gardner Museum in 1990 was the biggest art heist in world history. More than \$500 million worth of paintings were stolen by men posing as police officers.
- The Ted Williams Tunnel, which runs about 90 feet underground, is the deepest tunnel in North America.
- Our nation’s first Thanksgiving Day was celebrated in Plymouth in 1621.

ALPI Chicago

★ General Office Info ★

Alpi USA, Chicago was the very first ALPI office to open in the USA in 1990. Starting with a small staff of three and an Albini partner, Lori-jo Fergle, Alpi Chicago has grown over the years to now offer full freight forwarding capabilities in imports and Exports. Today the Chicago branch is administered by Mr. Vince Galati, who has been with Alpi for over 19 years. He is aided by an enthusiastic staff for Air and Ocean imports and exports. The Chicago branch has been the key developer for over the years for the Freight systems and EDI capabilities the company now uses that enable all Alpi offices to compete on a global scale. We would welcome anyone and everyone to come by "The Windy City" and sample some of our mid-western charm and hospitality.

★ Flavor ★

Nicknames: The Windy City, City of Big Shoulders, Second City. Being nearly in the center of the US, the city of Chicago is unique in that it has become one of the main transportation hubs in the USA. Founded in 1833 along the shores of Lake Michigan, the city was the western gateway to the then un-explored territories of the North American continent. Its proximity to Lake Michigan soon made it a major shipping hub via the Great Lakes for goods coming in from as far away as New York and Canada. The City ranks among the top economies in the world in terms of both size and diversity with more than 4 million workers generating \$500 billion annually. Chicago is second to none when it comes to sports - The Chicago Cubs, The Chicago Black Hawks, and The Chicago Bulls all can claim world championships and die-hard fans! Chicago's culture involves visual arts, film, theater, Second City improvisational comedy and a music culture second to none featuring Jazz, Blues, and house music. We're also known for our deep dish pizza, significant architecture and fabulous steak!

★ Fun Facts ★

- In October 1871, a fire destroyed one-third of Chicago and left more than 100,000 homeless. Legend has it that Mrs. O'Leary's cow kicked over a lantern and sparked the fire.
- Chicago claims to have invented the zipper (1851) the Ferris Wheel (1893) spray paint (1949) the Twinkie (1930) the vacuum cleaner (1868) and deep dish pizza!
- Chicago River is the only river in the world that flows backward.

ALPI Dallas

★ General Office Info ★

Alpi Dallas opened in 1998 as a full-service Import and Export office. DFW is the Gateway for the Southwest for large exporting manufacturers of oil well and agricultural equipment. A major commodity for our office is tile, given the fact that many of the country's major tile importers are headquartered here. In Texas, we believe in Southern hospitality and friendliness/respectfulness. The Alpi Dallas Office takes pride ensuring your merchandise is "ours" until the end user has received them. We take our jobs seriously and from the heart.

★ Flavor ★

Nicknames: D-Town, BIG D, Where the East ends, America's Favorite City, Metroplex. Folks from Dallas are proud their neighborhoods (Oak Cliff, Deep Ellum, East Dallas, Uptown, Lakewood, to name a few), their diverse population and culture, complain about the weather, love their margaritas and the Dallas Cowboys football team! Dallas is a crossroad point between the four largest population centers on the continent - New York, Los Angeles, Chicago, and Mexico City. Founded in 1841 by John Neely Bryan, who chose the site along the river for his trading post, Dallas grew slowly at first. Significant expansion occurred during the Civil War years (1861-65), when Dallas was used as a supply depot for Confederate troops and again after the arrival of the first railroad in 1872. The 1930 oil strike in east Texas caused a boom in the Dallas economy, with the city becoming a financial and freight center serving the oil wells. Texas was the only state admitted to the Union. That was its own sovereign country at one time... that's why Texans refer to it as a "whole other country". Dallas is known as a center for banking, oil, cotton, and high technology. It is a rapidly expanding city, both in terms of population and economy. The most notable event held in Dallas is the State Fair of Texas, which has been held annually at Fair Park since 1886. The fair is a massive event, bringing in an estimated \$350 million to the city's economy annually.

★ Fun Facts ★

- The name Texas came from the Caddo word tayshas meaning "friends" or "allies". The Spanish pronunciation was tejas which the English then pronounced as Texas.
- On November 22, 1963, President John F. Kennedy was assassinated while his motorcade passed through Dealey Plaza in downtown Dallas.
- With the roof enclosed, the entire Statue of Liberty could fit into the Dallas Cowboys Stadium.
- During the winter holiday season, the Galleria Dallas is home to the country's tallest indoor Christmas tree.

The first ever stand-alone **MAWI** Flagship is where the brand first set its roots nearly 10 years ago. The store is a haven for fans of the brand with everything from archive to exclusive one-off pieces as well as Mawi classics, showcased alongside seasonal collections.

French Cambodian sisters Val & Vanda Heng Vong were living and studying in London, when they found themselves missing many of their favourite Parisian labels and products that they couldn't get hold of on the British side of the Channel. And that's when **AJME** was born. Aimé opened its Redchurch Street location in 2013, expanding from its original West London home, stocking the best in French design.

CELESTINE ELEVEN offers everything in lifestyle, ready-to-wear and accessories that a modern, style savvy woman might need. That includes yoga classes and treatments in the basement. As for designers, expect to find garms by J.W. Anderson, Meadham Kirchhoff, Charlie May and Pamela Love.

Scandinavian brands, tick; streetwear, tick; minimalistic art gallery ambience, tick. The **GOODHOOD STORE** started as a self initiated, self funded project to curate some of the finest clothing collections and objects from around the world, all of which shared their ideas of independence, exclusivity and quality. It has now moved to a bigger location on Curtain Road that houses their own Life Store and cafe in the basement.

If you're in the area you might as well go to neighbouring Dalston and visit **LN-CC** (actually, you **MUST**). A unique retail experience and more of an installation piece than a traditional shop environment, once you made it through the impressively illuminated tunnelled entrance you'll find an unusual mix of international labels like Balenciaga, Jil Sander, Dries Van Noten, Rick Owens and Yohji Yamamoto as well as underground Japanese brands such as **SASQUATCH** and **Wacko Maria**.

Also known as Absolute Vintage's little sister, **BLONDIE** is a fancy vintage store with an impressive selection of vintage pieces – especially unique shoes and boots. Fabulous gowns, chic handbags and belts as well as designer sunglasses – a heaven for any sophisticated vintage fan. All pieces are being sold in great condition, from one fashion lover to another.

Another great store bordering Shoreditch is **HOUSE OF LIZA**, a vintage boutique extraordinaire. The well-lit concrete showroom with frocks hanging stylishly from the ceiling couldn't be further away from smelly, crammed and dim vintage stores. It is showcasing a selection of cutting-edge, highly collectable vintage that wrote fashion history including Jean Paul Gaultier, Thierry Mugler, Moschino, Gianni Versace, Yohji Yamamoto and many more.
